

TRUSILVR®

Intra-Cellular Immunity

Your First Line of Defense Inside and Out

TRUSILVR is the most effective tool to maintain, sustain and support your immune defenses by reducing the workload placed on your immune system. This support allows your immune system to focus and prioritize its efforts on regeneration and overall wellness.

Benefits of TRUSILVR Liquid & Gel

- Acts as your first line of defense to protect you and your family from germs.*
- Works with antioxidants to help reduce swelling.*
- May have the ability to destroy bacteria, viruses, mold, yeast and a limited number of parasites.*
- Helps stimulate and mobilize stem cells.*
- Creates an environment where pathogens cannot survive.*
- Destroys the cause of sick cells.*
- Promotes healthy cell growth and fends off infections.*
- Disinfects surface germs.
- Improves wound healing.*
- Helps maintain a healthy digestive system.*
- Provides better bioavailability due to its alkaline and structured nature.*
- Effective antimicrobial solution.*
- Great for all first aid uses.*

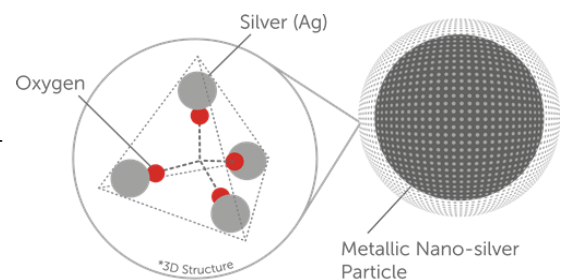

TRUSILVR GEL offers ACTIVATED OXYGEN TECHNOLOGY for rapid relief. This gel holds the active ingredients of TRUSILVR in place longer and destroys bacteria faster. Provides broad-spectrum antimicrobial protection and is great for healing cuts, rashes and skin irritations. Hydrates wounds to help minimize scarring.

The must have wound care product for home and on the go!

Why Juuva's TRUSILVR

TRUSILVR is an advanced, second-generation colloidal silver that is magnetically and electrically structured, producing atomic bonding of water and silver in a way that forms crystalline structures of silver and water. The structured silver bonds permanently to the water so it forms a solution of silver hydrosol, which has alkaline properties. It is electromagnetically bonded into a silver water by using pulsing energy. The structure of silver determines whether it can kill one part or millions of parts. The structure determines alkalinity and bioavailability. By structuring silver it destroys better and faster than all other forms of silver. Through a new manufacturing technology, our advanced nano-silver has become the new standard by which all other silver products are measured.

- TRUSILVR Liquid has 15 ppm and Gel 20 ppm of Pure Silver
- Medical University Human Ingestion Safety Studies
- Independent Studies have shown it to be as effective as products containing up to 3,000 ppm
- Uses the highest Grade Purified Water
- Specialized Alkaline Formula
- 100% Natural
- FDA cGMP certified facility
- Certified Probiotic Friendly
- Allergen and Gluten Free
- OU Kosher Certified
- No discoloration
- Certified 100% out of the body in approximately 24 hrs, no build-up or Argyria risk
- Odorless, colorless, non-staining
- Can make antibiotics more effective
- Safe for Daily Use — Certified Non-Toxic
- Manufactured Exclusively for Juuva in the USA

New research shows that low doses of silver can massively boost the effect of antibiotics on bacteria, making them up to 1,000 times more sensitive to the drugs. The researchers hope their discovery will give new life to old antibiotics, including those to which microbes have become resistant. <http://www.medicalnewstoday.com/articles/262290.php>

TRUSILVR has a positive impact on your health due to its cutting edge technology. It provides you with the highest professional grade, most effective, safe, pH balanced, structured alkaline silver available. TRUSILVR's uses are unlimited; be sure to "think silver" for your daily needs.

Liquid & Gel

General Usage:

- Immune Support & Maintenance: Take 2 teaspoons, hold under tongue for 1 minute and then swallow, twice a day.
- Acute Immune Issue: Take 2 tablespoons, hold under tongue for 1 minute and then swallow, 2-3 times a day.
- Immune health and function improves when TRUSILVR is used with antioxidants, like Juuva's Galaxy High Impact Blend.
- Antibiotics can become more effective when taken with TRUSILVR.
- Use gel on hands, nostrils and lips as needed to protect from foreign germs.

Cardiovascular Health:

- Take 2 tablespoons, hold in mouth for 1 minute, then swallow, twice a day.
- Brush teeth with gel to help destroy bacteria.

Digestive/Intestinal System:

- Intestinal Health Balance: Swallow 2 tablespoons 2-3 times a day and combine with a probiotic, like Juuva's Live.

Female Specific:

- Female Health: Use liquid to wash/rinse affected area and swallow 2 teaspoons twice a day.
- Apply gel to female organs twice a day.

First Aid Recovery Support for Cuts, Scrapes, Bug Bites etc.:

- Swallow 2 teaspoons twice a day. Wash, spray, or soak bandages with liquid.
- Apply gel topically as needed.

Healthy Water:

- Pour 2 tablespoons of liquid per one gallon of water, wait 4 minutes then drink as needed. For smaller doses pour 4 drops into 8 ounces of water and wait 2 minutes, then drink as needed.

Mouth and Gum Health:

- Hold 2 tablespoons in mouth and gargle for 4-5 minutes, then swallow, 1-2 times a day or use gel to brush your teeth.

Odors/Disinfect:

- Spray on bad smells as needed to kill the cause of odors.
- Topical Disinfectant: Spray on surface (full strength), let stand 2 minutes and then wipe off.
- Apply gel to foot fungus 2 to 3 times daily.

Respiratory System:

- Respiratory Health: Swallow 2 teaspoons twice a day and spray 3-4 sprays in nose as needed.
- Nasal Health/Allergies: Swallow 2 teaspoons twice a day and spray 3-4 sprays into the nose 4 times a day or apply gel to nostrils.
- Lung Health: Swallow 2 tablespoons 2-3 times a day, and inhale 4 sprays 3-4 times a day.
- Use a cool mist humidifier or nebulizer and fill reservoir one tenth full with liquid then fill the rest with water and place next to bed during sleep.

Urinary System:

- During a urinary system crisis swallow 1 ounce every hour for 4 hours. Continue with 2 tablespoons twice a day for the next week and then return to maintenance dose of 2 teaspoons twice a day.
- Apply gel to affected area twice daily.

Sensory System:

- Ear Health: Point ear towards the sky and fill ear canal with liquid and hold for 10 minutes. Repeat every 12 hours and swallow 2 teaspoons twice a day.
- Eye Health: Use drops every hour, or as needed. Gel may be used in eyes twice daily.

Skin and Nails:

- Skin Issues: Apply gel to affected skin as needed. Cover to keep moist for best results.
- Nail Health: Soak nails in liquid for 15 minutes once a day and swallow 2 teaspoons twice a day.

Throat Health:

- Hold 2 tablespoons of liquid or gel in mouth for 3 minutes then swallow. Repeat several times a day.

Traveling:

- Swallow 2 teaspoons before, during and after flying or driving for general immune support. Before flying hold under tongue for 30 seconds and spray 3-4 sprays into nose. Use gel on hands, lips and nostrils.
